**Climbing Wall Conditions:**

- Climbers must weigh between 3.5 and 18 stone.
- Please ensure that you have consulted the dimensions diagram (available on the website) to check that we will be able to gain access to your venue and that the site is suitable for setting the wall up on. The wall needs to be located on firm FLAT/LEVEL ground with a pitch size of at least 8m frontage and 12m depth with no overhead wires or low hanging trees. We cannot gain access up steep slopes with sudden gradient changes as the trailer will ground out.
- The climbing wall is fully weather resistant but it is not considered to be safe practice to use in periods of heavy rain, when wind speeds exceed 30mph or during lightning storms. We therefore reserve the right to suspend climbing during periods of extreme weather.

**Segway Booking Conditions:**

The circular Sumo Arena is 5m in diameter. Gladiator Duel requires 9m x 9m with at least 3m head room. The Rodeo Bull and Surf Sim are 6m in diameter and 3m in height.
